**PTS, Inc. Announces Historic Milestones in Global Sales  
of the CardioChek® and CardioChek PA® Test System**

*Leveraging the company's worldwide sales penetration in over 100 countries, PTS, Inc. reported global sales of more than 200,000 CardioChek® and CardioChek PA® instruments, and expects to hit 10 million Lipid Panel test strips and 40 million PTS Panels® test strips by year-end 2009.*

**Indianapolis, IN – December 1, 2009** - Polymer Technology Systems, Inc. (PTS, Inc.), a leading global provider of point-of-care diagnostic products to the healthcare industry, announced today that the company achieved a number of record-setting global sales milestones. The CardioChek and CardioChek PA instrument platforms provide blood chemistry information including Lipids and Glucose, for cholesterol and diabetes testing. The company reports that a milestone of more than 200,000 instruments have been sold in over 100 countries including the U.S. In addition, the company reports over 9 million Lipid Panel Tests and over 35 million test strips have been sold worldwide.

“2009 is a very significant year in PTS, Inc.’s 12 year history. Despite the challenging global economic environment, we have achieved a number of sales milestones that demonstrate the continued strong demand for the CardioChek point-of-care test system. We also introduced a new product, the CardioChek Link®, and were able to realize significant quality improvements in our product line in general. We plan to make further investments in new products and in our quality system in 2010,” said Robert Huffstodt, President and CEO of PTS, Inc. “Taken together, our achievements this year represent PTS, Inc.’s commitment to strengthen our leadership in point-of-care cholesterol testing and build on our already strong momentum in the healthcare and wellness industry.”
